Perma-Bound Books, <http://www.perma-bound.com>; 800.637.6581

Library Software Programs

Readerware (<http://www.readerware.com>) provides a school with the software needed to organize and maintain a collection of books. This package is appealing to many small schools because of the low cost – basic program \$40.

ResourceMate Essential (<http://www.resourcemate.com>) has more "bells and whistles" than Readerware. It allows for larger book collections, incorporates additional fields and provides technical support (free for first three months). Basic cost \$395 to which other features can be added for \$\$.

Out-of-print Books
